

LUNG CANCER

CAN AFFECT

ANYONE

Lung cancer claims more lives in the U.S. than breast, prostate and colon cancers **COMBINED**.

Anyone can develop lung cancer including those who currently smoke, those who smoked in the past and those who never smoked at all.

PLEASE CONTACT US ABOUT GETTING INVOLVED IN OUR ORGANIZATION TO HELP DEFEAT LUNG CANCER!

Free ME from Lung Cancer

Hope.

Strength.

Faith.

Courage.

Please visit our website to learn how you can help effect change by raising much needed money for research.

www.freemefromlungcancer.org

You can change the lives of lung cancer patients, those at risk and their caregiver's one step at a time.

WHO WE ARE

Free ME from Lung Cancer is a non-profit organization. We are dedicated to raising money for lung cancer research, education and community support. We are also committed to making lung cancer a national priority.

SAVE YOUR BREATH EVENTS:

Our **Save Your Breath** event series will connect families, friends, neighbors and coworkers; **creating a community of support and empowerment.**

They will also help lung cancer patients, families and caregivers connect with others facing this disease; providing them with hope and inspiration.

To learn more about our **Save Your Breath** event series, Visit our Website at:
www.freemefromlungcancer.org

JOIN A TEAM, ORGANIZE A TEAM, HOST AN EVENT OR VOLUNTEER!

For more information on how you can get involved, contact:

Deb Violette, President
Free ME from Lung Cancer
deb@freemefromlungcancer.org
www.freemefromlungcancer.org
207-215-9035

Your generous donation today will help save lives tomorrow.

All proceeds will support Free ME from Lung Cancer's mission – research, education and community support.

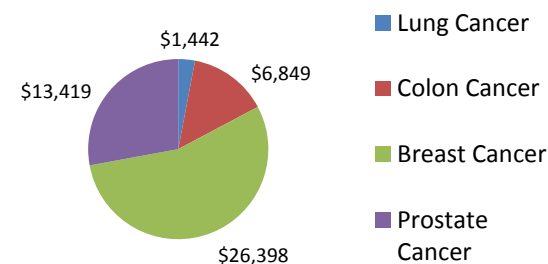

Volunteers at the 2012 Save Your Breath walk

Did you know that **LUNG CANCER** is the **LEADING** cause of death from cancer? It claims **MORE LIVES** each year than breast, prostate and colon cancers **COMBINED**.

Our current Lung Cancer RESEARCH FUNDING is not ACCEPTABLE.

Federal Research Dollars (2011)

Sources: Estimated federal spending from the combined FY 2011 research dollars of the National Cancer Institute, Department of Defense, and Center for Disease Control and Prevention.

PLEASE JOIN US!

The progress that researchers have made is remarkable. We need your support for continued success in discovering new treatment options so that everyone affected by lung cancer will live longer and better lives.
