

## FREE ME FROM LUNG CANCER'S 2025 ANNUAL REPORT

### BOARD OF DIRECTORS

Deb Violette, President  
Cheyenne Trask, Secretary  
Echo Palmer, Treasurer  
Pam Moffitt, Director  
Terry Stackhouse, Social Media Director

### MISSION

To reduce the suffering caused by a diagnosis of lung cancer by raising much needed money for lung cancer research, help high risk patients get access to early lung cancer screening and single family low income home owners get access to radon air abatement systems.

### YEAR END FINANCIAL REPORT

Gross Income	\$281,330
Total Expenses	\$59,042
Fundraising Expenses	\$467
Mgt. & General Exp.	\$12,779
Program Services Exp.	\$222,288
End of Year Net Assets	\$745,015

The board continues to maintain a solid cash reserve to maintain program services through 2026.

The Normand Dubreuil Radon Air Abatement Program helped 7 low income homeowners get a radon air abatement system installed in their homes. We provided a \$10,000 grant to Northern Light Mercy Hospital's early lung cancer screening program and will be awarding more grants in early 2026 to area hospitals.

We started a new program last year to help our rural communities get financial assistance to travel to medical appointments and treatment. Over 61% of Maine citizens live in rural areas. Some patients must travel over 150 miles to get to the necessary care they need. This is a huge barrier for patients to access health care. We partnered with Penquis Transportation Services with at \$10,000 grant , Beth C Wright Cancer Resource Foundation with at \$25,000 grant and the Wabanaki Health and Wellness with a \$50,000 grant. These monies will help patients get transportation to their medical appointments. We plan to expand our partners in 2026.

**We are making a difference in our community thanks to our many generous donors.**

**Our President attended International Association for the Study of Lung Cancer Conference, ASCO, Maine Lung Cancer Coalition meetings, American Cancer Society Lung Cancer Round Table, LungCAN annual meeting and ZOOM or other web conferencing with LungCAN**
